

Alumni Learning Network - WSU

SPEAKER 1: The Alumni Learning Network, because we believe learning matters.

Washington State University, as a land-grant institution, is committed to providing lifelong learning opportunities to our graduates. The Alumni Learning Network, or ALN, provides members of the WSU Alumni Association free access to online undergraduate course content originally developed for WSU Global Campus courses. The material found through the ALN serves as a rich digital library curated by WSU faculty experts you know and trust, providing quick access to a reliable source of information in a world of information overload.

In addition, the ALN keeps alums connected with the WSU academic community and its offerings. The ALN does not provide a full online course experience. There is no faculty interaction, due dates, exams, or grades. There may also be reference to external resources that are not accessible in this free ALN version. Textbook information is listed on the syllabus should you be interested in purchasing a text to enrich your ALN experience.

To get the most from any ALN space we hope you'll thoroughly explore the material available through all of the links. Just as the faculty who teach them vary, so does the design of these spaces. You will generally find most content in the lessons area, but other sections such as discussions, course information, and assignments, may be rich sources of information as well.

What have you got to lose? It's free, so jump in and give it a try. Explore. We hope you enjoy your experience and benefit from the resources and context the faculty have provided. Here's to lifelong learning and Go Cougs.
